Follow the ENOS Art Trail ...

From Aithernie to Kingsbarns we have a fantastic art trail through the coastal villages of the East Neuk of Fife, with its golden beaches, birdlife, terracotta roofs, cobbled streets and its colourful harbours. There's no better time to visit than when our talented local artists, designers and makers invite you into their homes and studios to view and chat with them about their work.

This brochure will guide you, with maps and details of artists in each location (with 18 artists, Pittenweem has two maps, east and west). Note that some parts of our villages have narrow streets, so it's often best to park nearby and then go for a wander. Venue numbering runs from Kingsbarns via the coastal fishing villages to Largo Bay, but please feel free to plot your own course!

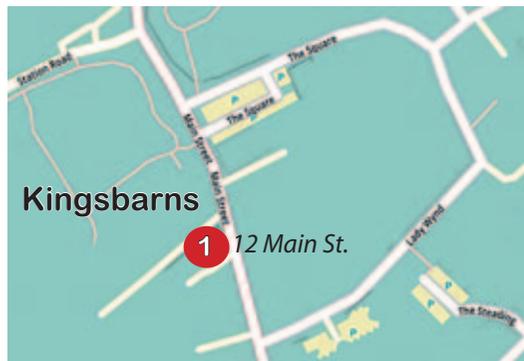

Our artists include those who have exhibited internationally, and those destined for future fame. Every artist has their own unique style, with an exciting range of paintings, textiles, prints, jewellery, illustrations, cards, photographs, metalwork and stained glass on sale. If you're looking for something to enhance home or office, you'll find lots of wonderful possibilities as you tour their studios.

So make a note in your diary, visit us in the East Neuk's wonderful villages, with our magnificent landscapes and and fantastic wildlife, and be inspired by our local art treasures on show during the Open Studios weekends.

**Remember, Remember,

**2022 ENOS Winter Showcase
Exhibition at the Bowhouse**

In 2021, Covid made it difficult to open studios and houses - so instead, ENOS staged two showcase weekends in the fabulous Bowhouse event space.

These were enormously successful, with over two thousand attending the summer event, and even more people visiting us in November.

No surprise then, that we are planning to return to the Bowhouse for this year's Winter Showcase Exhibition, with our provisional dates being the first weekend in November.

This brochure features the artists who are taking part in our summer weekends, but there are other ENOS artists who may join us in November; and all are listed on our website where you will find much more information about their work, as well as links to their websites and social media, and other useful information - if you are interested in their work, many are happy to be contacted at any time.
